> Rate alert

Now you can set „Rate alert“ directly in the application so you don't miss the information on your preferred achieved exchange rate level. „Rate alerts“ do not oblige you to conclude the transaction and do not represent transactions or fixing rates for transactions in any manner. Rate Alerts are monitored only during R-Flex working hours.

User guide

- > 1. Access the „Rate alert“ menu either from the „Rate alert“ button or from the bell on the transaction widget.
