- **Giving telephone consent** in the process of arranging financial services **remotely up to a maximum amount of payment transaction of 250.00 HRK**

What is **Dynamic Currency Conversion (DCC)**?

DCC is a service that can be offered to you at the point of sale or ATM abroad, for purchase or cash withdrawal card transaction. If offered, you can choose to make the transaction in your card currency or in the currency of the country where you are.

It is good to know that, **generally, it is cheaper for you to make a transaction in the original card currency**, i.e. not to choose a DCC service on a POS device or ATM, **because the fees and margins that foreign banks charge for the currency conversion service are most often higher.**
