

Instructions for the FINA Certificate Download

The [Software installation](#) instructions, required for the FINA Certificate download as well as for successful use of the RBA iDIREKT services via Active Key USB/SmartCard device, are available on the official web site. After successful software installation, the FINA Certificate download is enabled.

The FINA Certificate download is only possible through the Internet Explorer browser. Login to the RBA iDIREKT internet banking is not possible for 1-2 hours after successful download of the FINA Certificate.

Steps:

1. Enter the web address <https://mojcert.fina.hr> in the Internet browser address bar. Insert the Activ key USB in a USB port or the SmartCard in the card reader. The program automatically recognizes and selects the inserted device. If there are several devices inserted in the PC, select the correct one from the drop-down menu. Enter the authorization code received via e-mail, and click **Next**.
