15 November 2021

Dear Valued Shareholders:

The purpose of this letter is to inform you that the board of directors (the “**Board**”) of AB SICAV I (the “**Fund**”), an investment company (*société d'investissement à capital variable*) organized under the laws of the Grand Duchy of Luxembourg, has decided to make the following changes to several portfolios of the Fund:

1) Benchmark Changes

Due to the retirement of the London Interbank Offered Rate (LIBOR) at the end of 2021, the benchmarks of the below-referenced Portfolios of the Fund will be changed as follows, effective 1 January 2022:

Portfolio	Current Benchmark	New Benchmark
All Market Total Return Portfolio	Used for performance comparison: 3-Month USD LIBOR + 5%	Used for performance comparison: Secured Overnight Financing Rate (SOFR) + 5%
Alternative Risk Premia Portfolio	Used for performance comparison: 3-Month USD LIBOR + 5%	Used for performance comparison: Secured Overnight Financing Rate (SOFR) + 5%
Event Driven Portfolio	Used for performance comparison: 3-Month USD LIBOR + 4%	Used for performance comparison: Secured Overnight Financing Rate (SOFR) + 4%
Financial Credit Portfolio	Used for performance comparison: 3-Month LIBOR (USD)	Used for performance comparison: Secured Overnight Financing Rate (SOFR)

Portfolio	Current Benchmark	New Benchmark
Global Dynamic Bond Portfolio	Used for performance comparison: 3-Month LIBOR (GBP)	Used for performance comparison: Sterling Overnight Index Average (SONIA)
Low Volatility All Market Income Portfolio	Used for performance comparison: 3-month USD LIBOR + 3.5% Used for risk measurement: 20% MSCI World Index / 20% Bloomberg Barclays Global High Yield (Hedged USD) / 60% Bloomberg Barclays Global Aggregate Corporate 1-3 Year Index (Hedged USD)	Used for performance comparison: Secured Overnight Financing Rate (SOFR) + 3.5% Used for risk measurement: 20% MSCI World Index / 20% Bloomberg Barclays Global High Yield (Hedged USD) / 60% Bloomberg Barclays Global Aggregate Corporate 1-3 Year Index (Hedged USD)
Sustainable All Market Portfolio	Used for performance comparison: 3-month EURIBOR + 5% Used for risk measurement: 30% MSCI World Index, 30% MSCI World Index EUR (hedged) & 40% Bloomberg Barclays Global Aggregate Index (EUR hedged)	Used for performance comparison: Euro Short-Term Rate (ESTER) + 5% Used for risk measurement: 30% MSCI World Index, 30% MSCI World Index (EUR hedged) & 40% Bloomberg Barclays Global Aggregate Index (EUR hedged)

For the avoidance of doubt, the change of a benchmark does not affect the way the Portfolios are currently managed. All Portfolios remain actively managed and the change of benchmark does not change the applicable investment objective, policy, or strategy. In addition, neither the current nor new benchmarks are used to calculate any fees including performance fees.

2) All Market Income Portfolio

Effective 1 January 2022, the Portfolio AB SICAV I - All Market Income Portfolio will add a new benchmark for performance comparison while the benchmark used for risk measurement remains unchanged so as to read as follows:

Portfolio	Current Benchmark	New Benchmark
All Market Income Portfolio	Used for performance comparison and risk measurement: 50% MSCI World Index / 40% Bloomberg Barclays Global High Yield (Hedged USD) / 10% Bloomberg Barclays Global Treasuries (Hedged)	Used for performance comparison: Secured Overnight Financing Rate (SOFR) + 5% Used for risk measurement: 50% MSCI World Index / 40% Bloomberg Barclays Global High Yield (USD Hedged) / 10% Bloomberg Barclays Global Treasuries (USD Hedged)

For the avoidance of doubt, this change of benchmark does not affect the way the Portfolio is currently managed. The Portfolio remains actively managed and this change of benchmark does not change the applicable investment objective, policy, or strategy.

3) India Growth Portfolio

- A. As per the prospectus of the Fund (the “**Prospectus**”), the Portfolio can accept transactions on any day on which banks in Luxembourg, Mauritius and India, and the New York Stock Exchange are open (the “**Business Day Definition**”).

In the past, the Portfolio invested substantially all of its assets in India through a Mauritian subsidiary (the “**Mauritian Subsidiary**”) and this is the reason why Mauritius bank working days were included in the Business Day Definition.

On 8 January 2018, the Board resolved to no longer invest through the Mauritian Subsidiary and to transition the Portfolio’s investments out of the Mauritian Subsidiary and into the Portfolio (the “**Transition**”).

As of the date of this letter, no Portfolio’s investments are held through the Mauritian Subsidiary and as a result of the completion of the Transition, the Board has decided to change the Business Day Definition of the Portfolio as follows effective 1 January 2022:

Current Business Day Definition	New Business Day Definition
<i>Every day that the New York Stock Exchange and banks in Luxembourg, Mauritius and India are open for business.</i>	<i>Every day that the New York Stock Exchange and banks in Luxembourg and India are open for business.</i>

- B. The Fund’s management company, AllianceBernstein (Luxembourg) S.à r.l, has decided it is in the best interest of shareholders to voluntarily undertake to cap the total aggregate fees and costs charged to investors for a particular Share Class in a fiscal year. The expense caps are as follows:

Share Class ¹	Voluntary Expense Cap
A	2.27%
AX	2.07%
B	2.27%
BX	3.07%
C	2.72%
I	1.47%
S	0.43%
S1	1.37%

This change will be effective on **1 January 2022**.

4) Alternative Risk Premia Portfolio

The Fund’s Investment Manager believes it is in the best interest of shareholders to change the name of the Portfolio to **AB SICAV I - Multi-Strategy Alternative Portfolio**, effective on 1 January 2022.

The new name will more accurately reflect the Portfolio’s investment strategy of using multiple alternative strategies to achieve its investment objective. Accordingly, the Portfolio’s investment policy will be updated to remove the reference to “risk premia”. For the avoidance of doubt, the change of name does not affect the way the Portfolio is currently managed which remains actively managed with the same investment objective and strategy.

5) China Trading

Effective 1 January 2022, the following portfolios may make use of Stock Connect, Bond Connect, and/or an RQFII program in order to invest in China securities when seeking to achieve their investment objective subject to any existing investment restrictions outlined in the Prospectus. Stock Connect, Bond Connect, and/or an RQFII program provide the portfolios a more efficient manner of investing in China securities.

¹ This reduction or implementation of voluntary expense cap is applicable to corresponding currency hedged and currency denominated share classes.

For the avoidance of doubt, the above change does not affect the way the Portfolios are currently managed and does not change their investment objective.

If you feel otherwise, there are various options available to you: (1) You may request the exchange of your investment free of charge in shares of the Portfolios for the same share class of another AB-sponsored UCITS registered in your jurisdiction or otherwise available through an AB authorized distributor in the country in which you reside; or (2) You may redeem your shares in the Portfolios free of charge (subject to any contingent deferred sales charge, if applicable to your shares) before the changes become effective.
