Outlook

We target a CET1 ratio (fully loaded) of around 13 per cent in the medium term.

After stabilizing loan volumes, we look to resume growth with an average yearly percentage increase in the low single digit area.

We expect net provisioning for impairment losses for 2017 to be significantly below the level of 2016 (EUR 758 million), supported by a high level of recoveries and gains on NPL sales.

After reaching the previous goal of approximately 8 per cent ahead of schedule, we expect the NPL ratio to reduce further in the medium term.

We aim to achieve a cost/income ratio of between 50 and 55 per cent in the medium term, unchanged from our previous target.

Our medium term return on equity before tax target is unchanged at approximately 14 per cent, with a consolidated return on equity target of approximately 11 per cent.
